

DOP - Declaration of Performance

Cwmavon Works, Cwmavon, Nr Pontypool, Gwent, NP4 8UW

Product Range - Capital Damp-proof Membranes

Capital DPM is a low density polyethylene membrane to protect buildings from moisture in the ground, for use in solid concrete ground floors which are not subject to hydrostatic pressure

System of assessment of verification of constancy of performance (AVCP)
System 2+

We declare that this product range conforms to standard EN 13967:2012

Damp-proof Membrane (0.25mm, 0.3mm & 0.5mm)

Type A in accordance with EN 13967

Test results

Test	Performance	Harmonised Technical Specification
Reaction to fire	F	<u>EN 13967:2012</u>
Resistance to static loading on hard substrate	Pass	
Resistance to static loading on soft substrate	Pass	
Durability against ageing heat	Pass	
Durability against ageing alkali	Pass	
Watertightness	Pass
